Dear Mr. Colby:

I have just returned from Hawaii to find your letter of 10 April 1974 awaiting me. You were most thoughtful and kind to write to me concerning my selection to receive the AEC Distinguished Service Award. I realize that the wonderful people, both contractor and AEC, in the Albuquerque production complex are the ones who earned this recognition. I consider myself only to be the custodian of this award.

It has been a privilege and a pleasure for me to work with your people since 1965. My association with your organization is one of the highlights of my career, and has been of great value to me in my various assignments.

Again, many thanks for your letter.

As always,

  
H. C. Donnelly  
Manager
